The Village of Grosse Pointe Shores, A Michigan City Lake Shore Road Resurfacing (an STP-U Project)

The Village of Grosse Pointe Shores, a Michigan City, is pleased to announce that Cadillac Asphalt will begin bituminous paving on Lake Shore Road from Vernier Road north to the City limits on Thursday, July 26, 2012, weather permitting. The leveling course will be placed at this time and the final wearing, or top course of bituminous shall be placed in the next couple of weeks and all homeowners will again be notified. This project is being partially funded by the Federal Government's Surface Transportation Program (Urban) STP-U Program through the State of Michigan.

A minimum of one lane of traffic in each direction on Lake Shore Road will be maintained at all times. There may be times when minor interruptions may occur which will result in a temporary detour, dependent on the extent of pavement and/or base repair which may be required in the through and turn-around lanes. **It shall be the responsibility of each homeowner who has sprinkler heads near the curb to have the zones temporarily turned off prior to and during the paving operation for the Contractor. If the homeowner needs assistance from the City DPW in turning off the zones, please contact the DPW office at 313-886-0020.**

Please obey posted construction signs and exercise caution around the work crews in the area during construction. Every effort will be made to minimize any inconvenience to all area property owners and patrons. Your patience and cooperation is appreciated during this time. If you have any special needs, questions, or complaints not already addressed by this flyer, please feel free to contact the Field Observer (white hard hat) or any of the following persons:
